

CORE IDEALS OF AMERICAN SOCIETY

In which of our national document(s) (Declaration of Independence, Constitution, etc...) can you find the core ideal equality?

It's found in the U.S. constitution. but it was not in there until the the last two states ratified the 14th Amendment.

As a society today, or throughout our history, explain how have we moved toward and/or away from that ideal.

As a society we have moved toward equality is by giving people more rights and more room to speak.
